

A familiar eCommerce purchasing experience plus extraordinary access control, custom reports, and visibility of TVC's massive database of thousands of products.

TVC Communications offers a wide variety of advanced, fully-customizable ecommerce solutions to our customers. Customers can place orders from specific approved product listings, move through their own approval process, and check real-time inventory and shipping information - all tailored to your specific needs.

Backed by our parent company, WESCO Distribution, Inc., TVC has the financial resources, technical ability, and national distribution network to be part of your eprocurement strategy and solution. TVC is truly simplifying the daily business process for our customers, one click at a time.

- Every customer has the ability to specify their own e-procurement experience with TVC, including:
- Approval processes according to your needs
  - Multi-tier profiles with different tiers of authority built to your specifications
  - Real-time visibility of inventory levels and freight expenses
  - Customizable Favorites lists for quick repeat purchases
  - Consolidated monthly billing or traditional invoice billing - your preference
  - Dedicated customer support
