

NOVUX™ Hardened Terminals

A modular ecosystem that's easily
configurable and scalable

COMMSCOPE®

NOVUX is the natural evolution of today's products—made better

When we set out to design our new NOVUX™ fiber-to-the-X (FTTX) ecosystem, we listened carefully to our customers. You told us that solutions must deliver the agility to evolve quickly while providing the flexibility to work seamlessly with any field application. We also learned you need solutions that deliver reliability today—and decades from now—so that you can realize your goals and keep pace with the rapidly changing network environment.

75% fewer components than existing products

DELIVER

50X the number of configurations available today

The NOVUX hardened terminals advantage

Configurable. Scalable. Simple.

Widest variety of technologies available from a single platform

- Single- and multi-fiber, splitters, optical tap, fiber indexing, and on-demand hybrid configurations

Application flexibility for new builds and upgrades

- Extended choice of cable types and sizes; stubless configurations
- Minimized footprint for optimal port count and terminal size
- Black and gray colors for ease of concealment

Ready for the field workforce of the future

- Unique network identification with ID plate and QR code
- Uniform installation practices and documentation speeds cross-training
- Digital access to all product information powered by CommScope cTrak® app

Agile global supply chain backed by common platform design and processes

- Multiple global locations with local manufacturing advantage
- Industry-renowned local field expertise and support

NOVUX hardened terminals

UP TO 40%
smaller*

*compared to existing MST terminals with universal mounting bracket

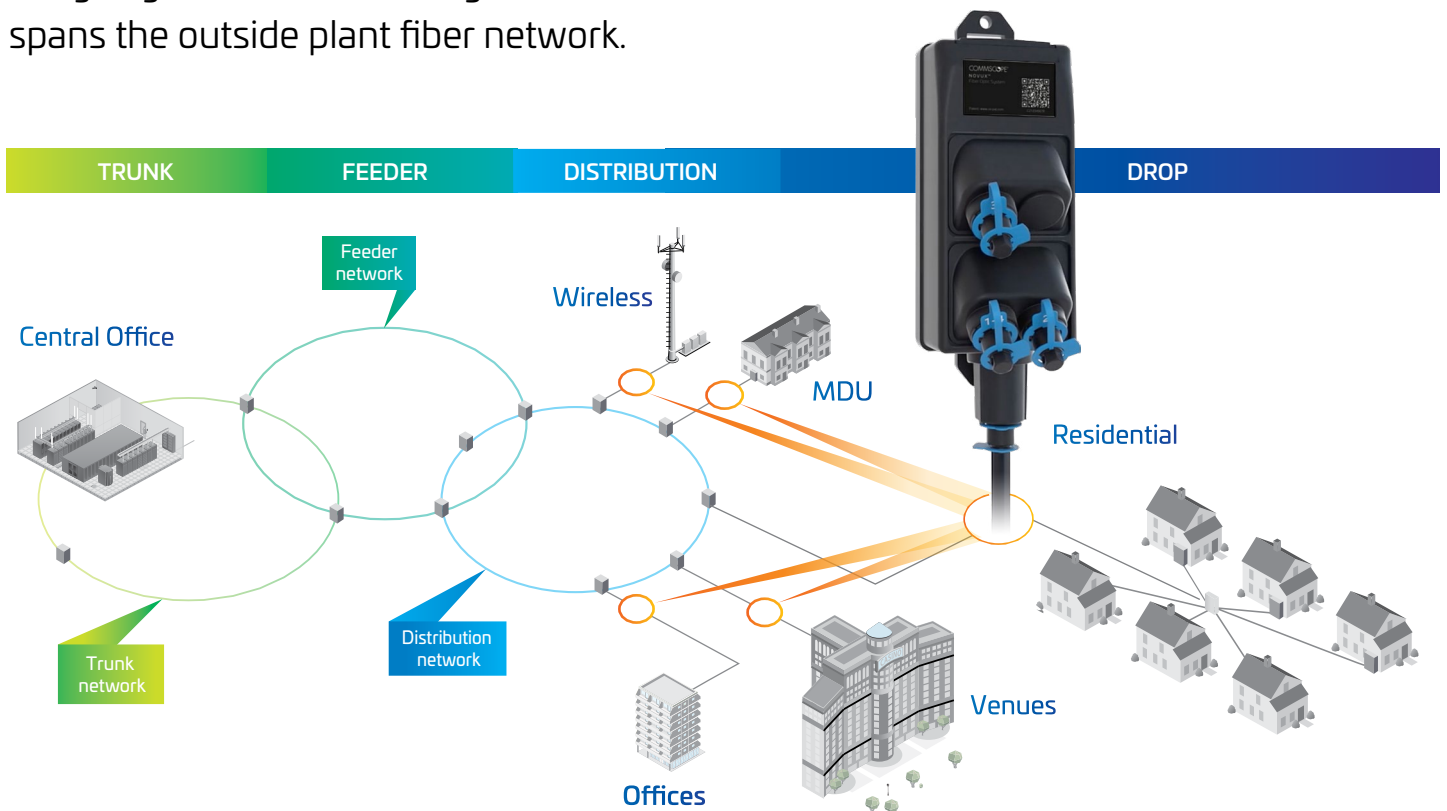

Current MST 8-port

NOVUX HST 8-port

NOVUX hardened terminals are engineered from the get-go as a new FTTX system architecture that spans the outside plant fiber network.

A complete FTTX ecosystem for all your network applications

Configurable, scalable, simple. Sounds like a tall order. That's where CommScope's new NOVUX hardened terminals come in. The modular design and innovative technology of our new terminals will help our provider partners keep pace with a rapidly changing network environment.

NOVUX single-fiber terminals

- Ideal for single-family unit communities
- Up to 12 ports
- Point-to-point (P2P) or splitter configurations

NOVUX multi-fiber terminals

- Ideal for multi-fiber applications
- Up to 12 ports
- 2 to 12 fibers per port

NOVUX optical tap terminals

- Reduce deployment costs in rural or low-density applications
- Plug-and-play 2, 4, 8 drops

NOVUX fiber indexing terminals

- Leverage innovative fiber indexing for new builds
- 12 and 24 fibers

[Learn more about fiber indexing](#)

Each terminal in these applications is from the NOVUX HT Series. They're designed to adapt to your application—sharing connection capabilities, a unique product information system, a mounting platform, and customer configurability. While NOVUX hardened terminals are helping build your network, they're building your long-term profitability, because one terminal works for all your applications in all your deployments.

The ultimate flexibility for plug-and-play FTTH solutions

NOVUX hardened terminals				
				
NOVUX HT	TECHNOLOGIES AVAILABLE	SMALL	MEDIUM	LARGE
HST Series	Single-fiber: P2P/no splitters	2 ports	6 ports	12 ports
		4 ports	8 ports	
	Single-fiber: P2P w/splitters	2 ports, 1x1:2	8 ports, 2x1:4	12 ports, 3x1:4
		4 ports, 1x1:4	8 ports, 1x1:8	
	Hybrid for multi-use		7 ports, 1x1:4 splitter, 3 P2P	12 ports, 1x1:8 splitter, 4 P2P
		4 ports, 1x1:2 splitter, 2 P2P	8 ports, 1x1:4 splitter, 4 P2P	11 ports, 2x1:4 splitter, 2 P2P, 1 HMFOC 4f
HMT Series	Multi-fiber	Up to 24f	Up to 24f	Up to 24f
		2 ports, each 2, 4, 6, 8 or 12f	6 ports, each 2, 3 or 4f	12 ports, each 2f
		3 ports, each 2, 4, 6, or 8f	8 ports 2 or 3f	
		4 ports, each 2, 4, or 6f		
HTT Series	Optical taps	2 drops	4 drops	8 drops
HXT Series	Fiber indexing	12 fiber index only, 1f	12 fiber 1:4	12 fiber 1:8
		12 fiber index only, 2f	12f multi-use 2f + 1:4	12 fiber multi-use, 3f +1:4
		12 fiber index only, 3f	24f multi-use 2f	12 fiber multi-use, 4f +1:4
		12 fiber index only, 4f	24f multi-use 3f	12 fiber multi-use, 2f +1:8
		12 fiber multi-use, 2f	24f multi-use 4f	
		12 fiber branching, 2 to 6f per port		

On-demand configurations are available. Contact your CommScope representative to discuss your specific needs.

One platform. Any deployment. Choose your connectivity and cable option.

NOVUX hardened terminal configurations:

- Full-size single-fiber connector
- HMFOC multi-fiber (2-12 fibers) connector
- Full-size jack or HMFOC jack in terminal front ports
- HMFOC or full-size plug on terminated stubs
- Stubless versions with either HMFOC (12f) or full-size jacks in cable port

[Go to CommScope fiber cables portfolio](#)

Cable types	Cable sizes
Flat dielectric	8 mm W x 4.3 mm H
Flat toneable / locatable	10.1 mm W x 4.3 mm H
Round armored	8.0 cm (3.1")
Round dielectric	5 mm (capability up to 18 mm)

Ready for the field workforce of the future

Whatever the application, wherever you need to mount them, NOVUX hardened terminals are ready. The built-in mounting tabs and mounting strap features easy, direct mounting onto a strand, flat surface, pole, pedestal, or within a hand hole. Alternatively, to ease installation and maintenance, CommScope's universal mounting bracket can be used in all mounting applications. With one common platform, installation across the series is easy and efficient and is backed by consistent documentation and training.

Universal mounting bracket* attaches to the built-in mounting features on the back of the terminal

* Ordered separately

Unique network identification

One-click access to all product information

Each NOVUX hardened terminal comes with a QR code that allows field installers to access CommScope's cTrak® app. With one click, cTrak provides a wealth of product information, specifications, installation instructions, videos, schematics, and test results.

NOVUX—built for you

You work hard to give your customers the best network connectivity. Why should your terminals look the same as those of other providers? NOVUX hardened terminals offer an optional customer-configurable ID plate, for ease of network record-keeping, and clarity for multiple operators that share locations.

Investing in the planet

CommScope designed NOVUX using sustainable practices for packaging, labeling and installation, helping customers meet their own corporate sustainability goals.

All components come in compact, convenient packaging for optimal environmental benefit and minimize single-use plastic.
