FieldSmart Small Count Delivery (SCD)

Outdoor/Indoor Wall Box - Enclosure for Clearview xPAK

Application

- Fiber Demarcation
- Entrance Facilities
- Security Systems (CCTV)
- MDU (Multi-Dwelling Units) applications
- FTTP internal drop box
- Business Class Services

- RFoG scenarios
- Traffic monitoring/ DOT
- Telecommunication Room
- Power/Wind farm applications
- Cell Backhaul

Description

Ideal for any small-count "landed" fiber scenarios where 2,4, or 6 fibers are required in a discrete footprint without sacrificing fiber management. Optimized for use with the Clearview xPAK.

Features & Benefits

Integrity
- Utilizing the Clearview xPAK, it supports industry standard SC and LC singlemode connectors
- Dual snap locks to ensure lid seals to base
- Mounting hole pattern for multiple applications

Protection
- Radius protected storage for up to 15 feet of buffer tube
- NEMA 4 rated
- Security screw with ability to secure with padlock
- Gasket seal
- Ground lug included

Access
- Small design facilitates ease of use in crowded environments
- Easy to install with both internal and external mounting holes
- (2) bottom entry / exit points

Investment
- Patch and splice or patch only
- Surface or pole mount capable
- Flame retardant PVC for durability
